PROFESSIONAL SUMMARY

Front-End Developer with a Computer Science degree from Kafr El-Sheikh University (2026). Specializes in React.js, Next.js, and TypeScript, with 1+ year of freelance production experience delivering 7+ end-to-end web applications across e-commerce, ERP, SaaS, and AI-powered platforms. A collaborative, detail-oriented problem-solver, recognized for clear communication with cross-functional teams, strong time-management, and fast adaptability to new tools and requirements. Focused on building fast, scalable, user-centered interfaces. Actively seeking junior frontend roles in Egypt or remote opportunities.

PROJECTS

•3OTOR – Luxury Fragrance E-Commerce Platform

Live production platform serving real customers.

🌐 3otor.shop

- Built a complete shopping experience (filtering, wishlist, cart, checkout, orders/returns) and an admin dashboard with sales analytics via Recharts, coordinating closely with the backend developer on API design.
- Applied SEO best practices and clean URL architecture, achieving a Lighthouse performance score of 97/100; live and currently serving real traffic.
- Tech: Next.js, React 19, TypeScript, Tailwind CSS 4, Zustand, TanStack Query, Recharts, Axios, Framer Motion

•EgyFinance – AI-Powered Financial Dashboard

Bilingual financial intelligence platform with AI-driven insights.

🌐 Live Demo

- Integrated 4 financial APIs for real-time currency, stock, gold, and crypto data, plus an AI chat assistant (Gemini API) for market insights; independently designed a multi-source fallback strategy to keep data uptime near 100%.
- Built a full Arabic/English bilingual UI with RTL switching and a data-focused design system, improving accessibility and usability for a broader user base.
- Tech: Next.js 15, React, TypeScript, Tailwind CSS, Zustand, TanStack Query, Recharts, Gemini API, Axios

•TestGen – AI-Powered Test Case Generator

SaaS product converting natural language requirements into QA test cases.

🌐 Live Demo

- Architected a full SaaS UI: landing page, auth flow, dashboard, and requirement-to-test-case funnel with PDF/Excel export, as graduation capstone project with a cross-functional team.
- Implemented protected routing and polished micro-interactions with Framer Motion and Lottie animations, improving perceived performance and user engagement.
- Tech: React 19, TypeScript, Vite, React Router DOM, Tailwind CSS 4, Framer Motion, DotLottie

•Devlance – Software Agency Website

Production agency site built as frontend lead within a 3-person team.

🌐 devlance.software

- Led frontend delivery solo from design handoff to production, communicating daily with a backend developer to align on scope and timelines across a 3-person team.
- Built bilingual Arabic/English support with RTL switching, animated hero, and multilingual SEO (JSON-LD), improving organic search visibility.
- Tech: Next.js, React 19, TypeScript, Tailwind CSS 4, Framer Motion, DotLottie, Swiper, Resend

•Edraak – Educational Management System

Integrated academic platform for teachers, students, and admins.

🌐 Live Demo

- Built attendance tracking, performance monitoring, and a role-based grading system for admins, teachers, and parents, requiring close coordination across 3 distinct user roles.
- Implemented drag-and-drop scheduling (DnD Kit) and QR-based student ID generation, streamlining a previously manual scheduling process.
- Tech: Next.js, React 19, TypeScript, Tailwind CSS 4, DnD Kit, Radix UI, TanStack Query, Zustand

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3
Frameworks & Libraries: React.js, Next.js (App Router), Tailwind CSS, Framer Motion, shadcn/ui, DotLottie
State & Data Fetching: TanStack Query, Zustand, Context API, Axios
Forms & Validation: React Hook Form, Zod
Tools & Platforms: Git, GitHub, Vercel, Postman, Figma, VS Code
AI Tools & Model Selection: ChatGPT, Claude, GitHub Copilot, Cursor – prompt engineering and selecting the right AI model/tool per task
CS Fundamentals & Backend Basics: Data Structures & Algorithms, OOP, SQL & Relational Databases, Node.js & Express (fundamentals), JWT Authentication
Concepts: SSR, REST APIs, SEO & Structured Data, Performance Optimization, RTL Support, Responsive Design
Soft Skills: Collaboration, Clear Communication, Problem-Solving, Adaptability, Time Management, Attention to Detail, Leadership, Proactivity

WORK EXPERIENCE

•Front-End Developer

Dec 2024 – Present

Egypt

Freelance – Independent Projects & Team Collaborations

– Delivered 7+ production web applications independently and as a team lead, from requirements through deployment on Vercel, communicating directly with clients and stakeholders to align on scope and timelines.

– Led frontend on a 3-person agency team (Devlance), coordinating with a backend developer and adapting quickly to shifting priorities and client feedback.

– Optimized large-scale data rendering (10,000+ rows) from roughly 4 seconds to under 200ms (a 95%+ improvement) using react-window, React.memo, and useCallback, while maintaining RTL, bilingual, and responsive standards across all projects.

TRAINING & CERTIFICATIONS

•ITI Beni Suef – Front-End Development Training

Summer 2025

– 90 hours: HTML5, CSS3, JavaScript (ES6+), Bootstrap, TypeScript, React.js.

•ITI Tanta – Front-End Development Training

Summer 2025

– 120 hours: HTML5, CSS3, JavaScript (ES6+), Bootstrap, Tailwind CSS, React.js.

•IEEE Kafr El-Sheikh – Web Development Foundational Course

2024

– Foundational training in HTML5, CSS3, and JavaScript (ES6+).

EDUCATION

•Bachelor of Science in Computer Science and Information Technology

Sep 2022 – Jun 2026

Kafr El-Sheikh, Egypt

Kafr El-Sheikh University | GPA: 3.4 / 4.0

LANGUAGES

Arabic: Native **English:** Professional – technical documentation and professional communication
