PROFESSIONAL SUMMARY

Front-End Developer with 1+ year of hands-on experience delivering production-grade web applications using React.js and Next.js. Built and shipped 6 real-world projects – including a full-scale ERP system, a live e-commerce platform, and a professional software agency website – applying TypeScript, Tailwind CSS, server-side rendering, and RESTful API integration. Experienced leading frontend development in team environments, with a strong focus on performance, scalability, and clean architecture.

TECHNICAL SKILLS

Frontend: React.js, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3

Styling & UI: Tailwind CSS, Bootstrap 5, shadcn/ui, Framer Motion, LottieFiles

State & Data: TanStack Query, Zustand, Context API, Axios

Forms & Validation: React Hook Form, Zod

Tools & Platforms: Git, GitHub, Vercel, Postman, Figma, VS Code

Concepts: SSR, Component-Based Architecture, State Management, REST APIs, SEO, Performance Optimization, Responsive Design

Other: SQL, C# (Basic), Python (Basic), C++ (Basic)

PROJECTS

•Smart Moon ERP – Enterprise Resource Planning System

Dec 2025 – Present

Comprehensive ERP system for small and medium-sized businesses covering core operations end-to-end.

🌐 Live Demo

- Architected and built 6 fully functional modules: inventory, point-of-sale, procurement, accounting, HR, and analytics – covering the complete business lifecycle.
- Delivered interactive dashboards with real-time data visualizations, exportable PDF and Excel reports, and advanced full-text search powered by Fuse.js.
- Integrated Sentry for production error monitoring and Framer Motion for polished UI transitions, ensuring reliability and a smooth user experience at scale.
- Technologies: Next.js 16, React 19, TypeScript, Tailwind CSS 4, Radix UI, TanStack Query, React Hook Form, Zod, Zustand, Recharts, jsPDF, xlsx, Fuse.js, Sentry, Framer Motion

•Devlance – Software Agency Website

Apr 2026

Professional agency website for a software company, leading a 3-person team as the primary frontend developer.

🌐 Live Demo

- Led frontend architecture and implementation for a 3-person team (2 frontend, 1 backend), delivering the full site from design handoff to production deployment.
- Built bilingual (Arabic/English) support with RTL layout switching, animated hero using DotLottie, Swiper-based carousels, and JSON-LD structured data for multilingual SEO.
- Integrated Resend for contact form email delivery and implemented scroll-based animations via react-intersection-observer and Framer Motion.
- Technologies: Next.js 16, React 19, TypeScript, Tailwind CSS 4, Framer Motion, DotLottie, Swiper, Resend, react-intersection-observer, react-icons

•3OTOR – Luxury Fragrance E-Commerce Platform

Jan 2026 – Mar 2026

Full-featured e-commerce platform for luxury fragrances, publicly live and deployed.

🌐 Live Demo

- Designed and implemented the complete shopping experience: product filtering, wishlist, cart, checkout, and a full orders and returns management system.
- Built a feature-rich admin dashboard covering product management, promotions, shipping control, and sales analytics with Recharts visualizations.
- Applied SEO best practices including structured metadata and clean URL architecture, resulting in a production-ready, publicly deployed platform.
- Technologies: Next.js 16, React 19, TypeScript, Tailwind CSS 4, Zustand, Recharts, Axios, Framer Motion, react-icons

•Edraak – Educational Management System

Jan 2026 – Present

Integrated platform for managing teachers, students, and academic workflows in educational institutions.

🌐 Live Demo

- Built modules for attendance tracking, academic performance monitoring, and a grading system serving multiple user roles (admin, teacher, parent).

- Developed drag-and-drop class scheduling using DnD Kit, QR code generation for student IDs, and teacher-parent communication features.
- Technologies: Next.js 16, React 19, TypeScript, Tailwind CSS 4, DnD Kit, Radix UI, TanStack Query, React Hook Form, Zod, Zustand, Recharts, Axios, date-fns, qrcode.react

•MovieHub – Movie & Series Discovery App

Jul 2025 – Aug 2025

React-based application built with Vite for browsing movies and series with search, filtering, and wishlist.

🌐 Live Demo

- Integrated a public movie REST API to fetch dynamic content with search and region-based filtering via URL params, enabling fully shareable filtered views.
- Implemented global state management using Context API, supporting persistent wishlist and dark/light mode toggle across the application.
- Technologies: React.js 19, Vite, React Router DOM v7, Context API, Tailwind CSS 4, Axios, react-icons

•Personal Portfolio Website

Apr 2025 – May 2025

Responsive personal portfolio built with Next.js and Tailwind CSS to showcase projects and skills.

🌐 Live Demo

- Designed and developed a fully responsive portfolio with dark/light mode, contact form via Nodemailer, and high Lighthouse scores through applied performance optimization.
- Technologies: Next.js 16, React 19, TypeScript, Tailwind CSS, Framer Motion, react-icons, Nodemailer

WORK EXPERIENCE

•Front-End Developer – Freelance

Dec 2024 – Present

Self-Employed

Egypt

- Delivered 6+ production web applications independently and as a team lead, managing full project lifecycles from requirements gathering to deployment on Vercel.
- Built reusable UI component libraries and enforced consistent design systems, reducing per-project setup time across multiple client engagements.
- Integrated REST APIs and managed complex application state using Zustand and Context API across projects of varying scale and domain.
- Maintained cross-browser compatibility and mobile-first responsiveness as core delivery standards, including full RTL/bilingual support.

EDUCATION

•Bachelor of Science in Computer Science and Information Technology

Sep 2022 – Jun 2026

Kafr El-Sheikh University

Kafr El-Sheikh, Egypt

TRAINING & CERTIFICATIONS

•ITI Beni Suef – Front-End Development Training

Summer 2025

- 90 hours of practical training covering HTML5, CSS3, JavaScript (ES6+), Bootstrap, TypeScript, and React.js.

•ITI Tanta – Front-End Development Training

Summer 2025

- 120 hours of hands-on training covering HTML5, CSS3, JavaScript (ES6+), Bootstrap, Tailwind CSS, and React.js.

•IEEE Kafr El-Sheikh – Web Development Foundational Course

2023

- Completed foundational training in HTML5, CSS3, and JavaScript (ES6+).
