PROFESSIONAL SUMMARY

Front-End Developer with 1+ year of experience building production web applications using React.js, Next.js, and TypeScript. Skilled in Tailwind CSS, TanStack Query, Zustand, and REST API integration, with hands-on experience in SSR, bilingual RTL interfaces, and end-to-end delivery from design handoff to Vercel deployment. Open to frontend opportunities.

PROJECTS

•3OTOR – Luxury Fragrance E-Commerce Platform

Live e-commerce platform for luxury fragrances, publicly deployed and serving real customers.

🌐 Live Demo

- Delivered end-to-end shopping experience including product filtering, wishlist, cart, checkout, and a full orders and returns management flow.
- Built a feature-rich admin dashboard with product management, promotions, shipping controls, and sales analytics visualized with Recharts.
- Applied SEO best practices including structured metadata and clean URL architecture, resulting in a publicly deployed, production-ready platform.
- Tech: Next.js 16, React 19, TypeScript, Tailwind CSS 4, Zustand, Recharts, Axios, Framer Motion, react-icons

•Devlance – Software Agency Website

Production agency website built collaboratively as part of a 3-person team.

🌐 Live Demo

- Led frontend architecture and delivery for a 3-person team, taking the project from design handoff to production deployment independently.
- Implemented bilingual (Arabic/English) support with full RTL switching, DotLottie animated hero, Swiper carousels, and JSON-LD structured data for multilingual SEO.
- Integrated Resend for contact form delivery and built scroll-triggered animations using react-intersection-observer and Framer Motion.
- Tech: Next.js 16, React 19, TypeScript, Tailwind CSS 4, Framer Motion, DotLottie, Swiper, Resend, react-intersection-observer, react-icons

•Smart Moon ERP – Enterprise Resource Planning System

Full-scale ERP for SMEs covering inventory, POS, procurement, HR, accounting, and analytics.

🌐 Live Demo

- Designed and implemented 6 integrated modules covering the complete business lifecycle, from inventory and point-of-sale to HR and financial reporting.
- Built interactive dashboards with real-time data visualizations using Recharts, alongside exportable PDF/Excel reports and full-text search powered by Fuse.js.
- Integrated Sentry for production error tracking and Framer Motion for polished UI transitions, ensuring reliability and smooth UX at scale.
- Tech: Next.js 16, React 19, TypeScript, Tailwind CSS 4, Radix UI, TanStack Query, Zustand, React Hook Form, Zod, Recharts, jsPDF, xlsx, Fuse.js, Sentry, Framer Motion

•Edraak – Educational Management System

Integrated platform for managing academic workflows across teachers, students, and administrators.

🌐 Live Demo

- Built attendance tracking, academic performance monitoring, and a multi-role grading system (admin, teacher, parent) with role-based access control.
- Implemented drag-and-drop class scheduling with DnD Kit, QR code generation for student IDs, and a teacher-parent communication module.
- Tech: Next.js 16, React 19, TypeScript, Tailwind CSS 4, DnD Kit, Radix UI, TanStack Query, Zustand, React Hook Form, Zod, Recharts, Axios, date-fns, qrcode.react

•MovieHub – Movie & Series Discovery App

React SPA for browsing movies and TV series with search, filtering, and persistent wishlist.

🌐 Live Demo

- Integrated a public REST API for dynamic content with URL-based search and region filtering, enabling shareable filtered views across sessions.
- Managed global state using Context API with persistent wishlist and dark/light mode toggle maintained across the full application.
- Tech: React.js 19, Vite, React Router DOM v7, Context API, Tailwind CSS 4, Axios, react-icons

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frameworks & Libraries: React.js, Next.js (App Router), Tailwind CSS, Bootstrap 5, Framer Motion, shadcn/ui, LottieFiles

State & Data Fetching: TanStack Query, Zustand, Context API, Axios

Forms & Validation: React Hook Form, Zod

Tools & Platforms: Git, GitHub, Vercel, Postman, Figma, VS Code

Concepts: SSR, Component-Based Architecture, REST APIs, SEO, Performance Optimization, Responsive Design, RTL Support

WORK EXPERIENCE

•Front-End Developer

Dec 2024 – Present

Freelance – Independent Projects & Team Collaborations

Egypt

- Delivered 6+ production web applications, both independently and as a team lead, managing full project lifecycles from requirements gathering through deployment on Vercel.
- Led frontend development on a 3-person agency team (Devlance), collaborating with a backend developer and coordinating delivery from design handoff to production release.
- Built reusable component libraries and enforced consistent design systems, improving development efficiency across multiple client engagements.
- Maintained cross-browser compatibility, mobile-first responsiveness, and full RTL/bilingual support as core delivery standards across all projects.

TRAINING & CERTIFICATIONS

•ITI Beni Suef – Front-End Development Training

Summer 2025

- 90 hours of practical training in HTML5, CSS3, JavaScript (ES6+), Bootstrap, TypeScript, and React.js.

•ITI Tanta – Front-End Development Training

Summer 2024

- 120 hours of hands-on training in HTML5, CSS3, JavaScript (ES6+), Bootstrap, Tailwind CSS, and React.js.

•IEEE Kafr El-Sheikh – Web Development Foundational Course

2023

- Completed foundational training in HTML5, CSS3, and JavaScript (ES6+).

EDUCATION

•Bachelor of Science in Computer Science and Information Technology

Sep 2022 – Jun 2026

Kafr El-Sheikh University

Kafr El-Sheikh, Egypt

LANGUAGES

Arabic: Native

English: Intermediate – reading technical documentation and professional communication
